Description:

I started my education off in 2009, entering to Colegio Centro America, beginning from First Grade of Primary at the age of Six, ending to Fifth Grade of High school at the age of sixteen. Throughout the eleven years of my education. Luckily, I have been formed in one of the best schools around the country due to the chance given by my father and mother efforts. On the other hand, the education quality during these years has stayed steady despite the current social and political problems, that in my case as a member of the 2019 graduation, I was just involved and directly affected the way of teaching and receiving all the classes and lessons of 2018, nevertheless, I lived the best senior year of my life. The previous year, since the beginning of the year, i got enrolled and admitted into a university of engineering where my stay, did not last more than 3 months due to the lock down and curfews, bearing in mind that my aims in there were just to avoid starting from scratch everywhere i go, at the end of the day, it was not bad as i made out to be and up to now, I am applying to approach my higher education abroad.
